

EXPERIMENT NO. 9

Hospital Information System for SIMATS Hospital using Zoho Creator (SaaS)

Aim

To develop a cloud-based Hospital Information System for SIMATS Hospital using Zoho Creator to manage patient information and demonstrate Software as a Service (SaaS).

Objective

- Create a hospital information application.
- Store patient and attender details.
- Maintain doctor and disease information.
- Generate reports.

Software Requirements

- Zoho Creator
- Google Chrome
- Internet Connection
- Deluge Script (optional)

Theory

The Hospital Information System is a cloud-based SaaS application that stores patient records securely. It maintains patient details, contact information, attender details, doctor details and disease information. Zoho Creator enables easy form creation, cloud storage and report generation.

Fields Used

Patient Name, Age, Address, Phone Number, Email, Attender Name, Attender Phone, Doctor Name, Disease.

Algorithm

1. Start
2. Open the Hospital Information form.
3. Enter patient details.
4. Enter attender and doctor details.
5. Enter disease information.
6. Save the record.
7. Generate report.
8. View individual record.
9. Stop.

Procedure

1. Login to Zoho Creator.
2. Create the Hospital Information System application.

3. Design the form with required fields.
4. Save the form.
5. Enter sample records.
6. Create a report.
7. Verify the output.

Observation

- Patient details were entered successfully.
- Attender and doctor information was stored correctly.
- Hospital records were saved in the cloud database.
- Reports displayed all patient records.
- Individual record view displayed complete patient information.
- The application functioned correctly.

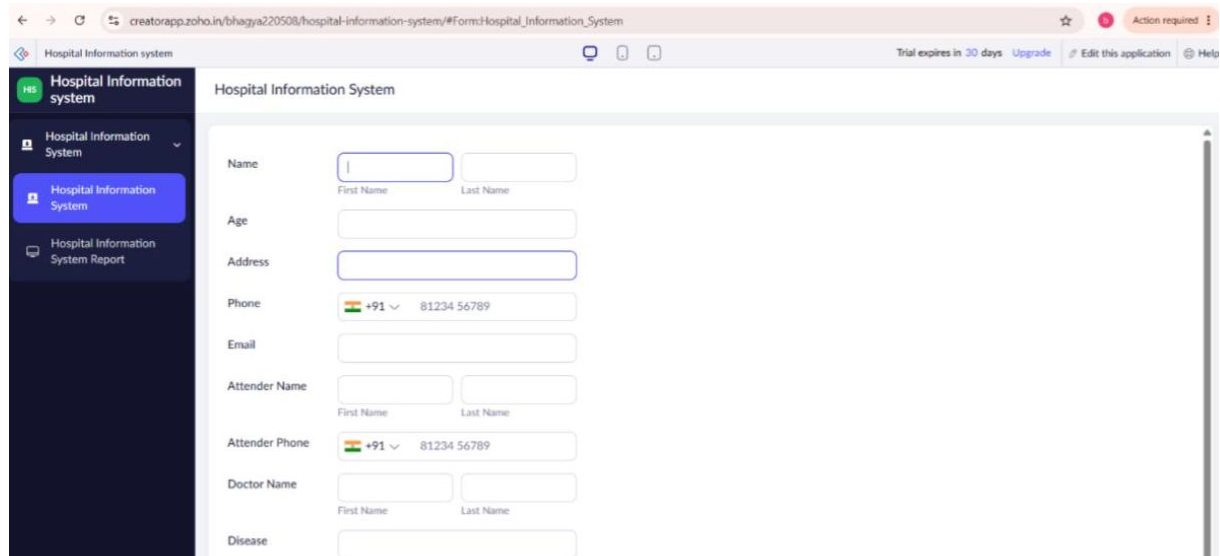

Result

The Hospital Information System was successfully implemented using Zoho Creator. Patient information was stored and reports were generated successfully.

Conclusion

The experiment demonstrated the implementation of a SaaS-based Hospital Information System using Zoho Creator.

Output Screenshots

The screenshot displays a web browser window with the URL `creatorapp.zoho.in/bhagya220508/hospital-information-system/#Form:Hospital_Information_System`. The browser's address bar shows the Zoho Creator logo, the application name "Hospital Information system", and a trial expiration notice: "Trial expires in 30 days Upgrade Edit this application Help".

The application interface features a dark blue sidebar on the left with the following menu items: "Hospital Information system" (with a green icon), "Hospital Information System" (with a dropdown arrow), "Hospital Information System" (with a person icon), and "Hospital Information System Report" (with a document icon). The main content area is titled "Hospital Information System" and contains a form with the following fields:

- Name:** Two input fields labeled "First Name" and "Last Name".
- Age:** A single input field.
- Address:** A single input field.
- Phone:** An input field with a dropdown menu showing "+91" and a pre-filled number "81234 56789".
- Email:** A single input field.
- Attender Name:** Two input fields labeled "First Name" and "Last Name".
- Attender Phone:** An input field with a dropdown menu showing "+91" and a pre-filled number "81234 56789".
- Doctor Name:** Two input fields labeled "First Name" and "Last Name".
- Disease:** A single input field.
